How To Make $35 - $35 Per Day Cheating Sharecash!

Introduction

Well after a few weeks of hesitation and being unsure of doing it. I have finally decided to release my top money making methods. This will be the first of four guides over the next few months which will contain methods that are guaranteed to make you 500 – 2000 K a month. I have been making money on the internet for a few years now been through literally 100's of systems and to be honest only in a few of those have earned for a few years. Now the systems I will be giving out will be limited    (5 to 10 people) due to too much people would kill the method or methods used to generate the money.

All of the methods will be fast earners with little or no work, 2 may require a initial investment but only one to generate cash flow and then it is endless, and the last one will be the one of the best it has worked for 2 years straight comes with the 2 percent loss risk, anyhow you will see these in the coming months depending on how they go.

Well let's get started

Volume 1 – SHARECASH MONEY MAKER METHOD

Well I know many of you will have seen this site already and most likely already have a account on this site. Now I have been with sharecash for 9 mths and have made well over 4000 dollars.

I initially started the hard way uploading stuff hoping people would download and fill out the surveys but this is a if and not a surety. I asked myself how can I make this work, this site is offering the best rates ever for downloads and there must be way. We'll I thought.. Why not download my files myself.. But how...

Well long story short I tried 6 methods and all of them have been blocked    after a month of success except for this one which is impossible to block but it has to be done exactly in the way I will show you.

WARNINGS

YOU MUST NOT EXCEED 60 DOLLARS A DAY, I WOULD RECOMMEND DOING 30-45 DOLLARS A DAY TO START

I SAY THIS BECAUSE SHARECASH HAS A DAILY TOP EARNERS

PAGE AND IF YOU ARE NEW AND ARE AT THE TOP OF THAT DAILY EARNERS LIST EACH DAY YOU WOULD LOOK SUSPECT AND THEY WOULD EVENTUALLY LOOK AT EVERYTHING TO SEE IF YOU ARE CHEATING. NOW EVEN IF THEY DO LOOK AT YOUR STATS I WILL SHOW YOU A WAY TO PROVE YOUR "FAKE" STATS BUT AGAIN FOR THE FIRST MONTH OF EARNING FILL EACH OF YOUR ACCOUNTS TO A MAX OF 30-45 A DAY THAN THE NEXT MONTH INCREASE SO IT SHOWS GROWTH.

STEP ONE

(WORKING GEAR – YOUR TOOLS)

– BLOG or WEBSITE (Best to make one here – (sosblog.com)

– OPERA BROWSER – Download here [www.opera.com](www.opera.com)

–   DYNAMIC IP –   You would have to have this to benefit from this method. (You shouldn't even have this guide if you didn't have one as it is stated in my first post)

–   Lastly you will need HITFAKER   – Download here
[http://rapidshare.com/files/148592183/Hitfaker0.1.rar](http://rapidshare.com/files/148592183/Hitfaker0.1.rar))

– BRAIN :)

That is all and again don't spend anytime making a nice webpage it can be anything and should take 10 mins max you just need to use it to upload a sharecash link.

Payment options to do multiple accounts you need to have access to any of these payment options. You will need to have real info.

Paypal account, access to a Western Union, Bank account (Wire transfer), Epassporte, Cheque

If you have 2 paypal accounts you can use those to cashout from 2 accounts, you can use your name to cashout from Western Union (3 accounts), and you can use epassporte (4 accounts). If you have a wife/girlfriend, friend you can make arrangements and use there's also. Paypal account, access to a Western Union, Bank account (Wire transfer), Epassporte, Cheque.

– Paypal account, access to a Western Union, Bank account (Wire transfer), Epassporte, Cheque. ( If you make

STEPS

1. Build a website or blog – (Use any sites that I have suggested or you can use any other it does not matter)

2. Make a account/accounts on Sharecash.org. If you are making four accounts reset your IP with every account you make do not use the same email for any of them and not the same names (only if you are doing cashing out from a payment option that requires ID like WU you will need to use your real name).

3. Upload a file it can be any size (You won't be really be downloading it   anyhow :)) you may want to be on the safe side upload 10 files to make you account look more proper.

4. Now what you want to do is upload that file to your blog/website this is different for all sites but there should be a faq or guide on how to do this on the blog or website you choose.

5. Now that we got the interface all setup. You need to reset your modem/router either by unplugging it or by doing it on the website of your ISP provider.

6. You should now have a new IP. (Confirm by going to Whatismyip.com)

7. Open Opera Browser and go to the webpage/blog you created.

8. Once there open your Sharecash link which you uploaded on the page in a new tab.

9. Now this is where the magic happens and it took me 4 months to find this gem. OPERA Browser if done in a particular way lets you get the download link without doing anything. Yes you don't have to fill in one piece of info in ANY of the surveys as a matter of fact you won't even pass the first page. This is how do it exactly how it is said here:

You will see on the Sharecash Download page two options to download your file either "REGULAR DOWNLOAD" or "PREMIUM DOWNLOAD" now what you do is RIGHT CLICK on regular download you will see a list of options you will select open. The first time you do this you will notice the page refresh slightly, but no window will open and no tabs will open. You REPEAT the RIGHT CLICK OPEN 7 more times (usually works in 3-5) and after you repeat it 7 times. You finally

Left click on the "REGULAR DOWNLOAD" and a window will open in the page and a "CLICK HERE TO DOWNLOAD" BLUE LINK will be at the top. You will have to fill in no INFO or anything. JUST CLICKING :)

10. Now open the that link either in a new tab or in the same page. I always open it in a new tab but it works either way and CANCEL your download. Clear your cookie and Cache only. You must do this every time you click on that blue link and cancel your download.

11. Now in IE or FIREFOX. Login into your account and open your stats and you will see you just got paid.

12. Go back to opera to the same page you were just on and close the offer window if still open and in the address bar delete the # from the end of the address and hit enter it will reload the page. Now do the Repeat Step 9 and 10 again in the same fashion.

13. Check your stats to see if you got paid. You will see more money.

14. Repeat steps 9-13 till either 2 things happen. You stop seeing the blue link or when you click on the blue link you get no money.

To understand what is happening I will explain Sharecash allows each IP user to complete all the offers in that country and usually one international offer.    So for each IP you should get 5 offers minimum sharecash sometimes gives 9 offers.

15. Reset your modem/Router and complete all the steps again.

16. Now at the end of each day you will use hitfaker to build up the views on your webpage/blog now this is a fail safe just in case sharecash asks for proof of your traffic downloads so all you would need to do is screenshot your webpage with views etc. (THIS HAS NEVER HAPPENED TO ME BUT TO BE 100 PERCENT SAFE DO IT ONE DAY YOU MIGHT THANK ME).

17. EARN AND EARN AND EARN :)

THIS HAS WORKED FOR NINE MONTHS FOR ME AND WITH LITTLE WORK A DAY YOU CAN MAKE A LOT OF MONEY YOU CASH EARNINGS REALLY DEPEND ON YOU AND HOW MUCH YOU WANT TO WORK EACH DAY.

If you have any problems you can email PM me on Cashloopholes Or email me bardonist@gmail.com.
