MAKE MONEY FAST WITH FACEBOOK: CPALEAD METHOD

CPAlead is a network that allows your visitors to take a survey, and
each survey can earn you from about $0.30 to $10.00. This method
will help you easily make money with CPAlead with no initial cost
at all.
The basic idea here is that we will be making a facebook group
dedicated to helping out a cause that people are very interested in.
So here is how to make money. I am going to try to be as straight
forward with the directions.
Step 1:
Create a blog on blogger. Can be called anything, but try to make the
name close to the cause you are going to promote (worldhunger.blogger, etc)
Step 2:
Choose a theme which allows you to add a gadget above the main
blog posts. See below for an example.

Step 3:

Make a POST that says something like "Thank you for helping the

cause. Make sure to spread the word on Facebook, twitter, aim , etc.

Together we can make a change," Or something along those lines.

Click on more options to set the date of the post to WAY back so that

it wont be seen on the main page.

Create a GADGET (Edit Layout>>Page Elements>>Add

Gadget>>HTML) that briefly summarizes the cause you are

promoting and say something about how you are raising money to

help the cause and with each survey they complete, they will be

helping out. Link to the POST on the gadget.

Step 4:

Go to Layout>>Page Elements and drag the HTML gadget above the

main blog post area. See same picture above.

Step 5:
Under BLOG POSTs on the PAGE Elements
Screen>> click edit and
change the number of posts seen to 1.

Step 6: Apply to [CPAlead](#)
Step 7: Create a widget. Add the code to the POST.
This allows
people to click on the link to your POST and when
they reach the
POST, theyhave to take a survey, which will be
their donation. You
can also update them on the amount you have
made so far.
Obviously you can donate some money and keep a
profit as well.
Step 8: Getting traffic.
Make a Facebook group that is Titled "Support
<cause> by joining
PLEASE READ!" or Raise money for <cause> by
joining PLEASE
READ.
Step 9: Add info that links to your blogger. Tell
them that taking a 30

second survey will help donate to this cause so please help out. Tell
them to invite all of their friends as well using the following code
(STRESS THIS THE MOST, WILL MAKE METHOD TURN
AUTOPILOT).
Add all of your friends to help the CAUSE!:
-Click invite friends
-Delete URL from Address bar
-add the following code in address bar and press enter
javascript:elms=document.getElementById('friends').getElementsByTagName('li');for(var fid in elms)
{if(typeof elms[fid] === 'object'){fs.click(elms[fid]);}}
-click invite friends after all friends are selected (may take a minute
or two if you have a lot of friends)
Step 10: Invite all of your own friends and start watching the money
roll in. Will take a day or 2 to start seeing a good amount of money
to come in, depending on how fast your friends join. Once people
start inviting their own friends, it will become autopilot.
This method WORKS great because people love to support causes.
Raising money for a good reasons will increase EPC and ratio which
creates great profit.
