CPA Methods And Internet Profits !!

Making Money Over The Internet

Thanks For Purchasing My E-book.

This E-book Will Teach You The Best Methods For Making Money Over The Internet ......

Requirements

1st) A Website "You Can Use Viviti.com It's Easy And Free"

2nd) A Valid CpaLead Account "You Can Sign up Here .

3rd) Some Free Time.

What Is CPA ?!!

CPA is "cost per action"

According to WikiaPedia "Cost Per Acquisition",
which has to do with the fact that most CPA offers by advertisers are about acquiring something (typically new customers by making sales). Using the term "Cost Per Acquisition" instead of "Cost Per Action" is not incorrect in such cases, but not all "Cost Per Action" offers can be referred to as "Cost Per Acquisition "

CPA is a good Internet Marketting Method , commonly preffered by publishers and advertisers

CPA Is Usually a Big Profit to publishers , but never a loss to anyone as you won't have to invest anymoney into it

Sometimes it's a Major Profit To People

Daily Stats Breakdown for 2010-04-01 to 2010-04-30:

Date	Clicks	Leads	Earned
2010-04-01	16017	762	$3,260.20
2010-04-02	12362	541	$2,321.27
2010-04-03	6299	257	$1,396.12
2010-04-04	7325	301	$1,744.51
2010-04-05	4144	149	$876.49

Ps " Always A Good Way to get accepted when doing the application is telling them you're getting visitors by posting attracting content.

Method 1 "Web Publishing"

This is the method you should be starting with as it's a main base for us getting profit out of this project

So Assuming You Created Your Website Which i recommend using viviti as you will need to modify scripts alot and assuming you got accepted

So Go to cpalead.com and sign in
go to the dashboard (It's the page where you get redirected to anyway)
Now you will find alot of tabs choose the widget tab

Over the left column you'll find a Create Widget Press it
Now Choose the options they're quite simple nothing much advanced
Now at the generate Code Window check the Java and ADS block method , press generate code.
Alright So now It's Time To Paste the code to your Site
Head To your site via viviti editor (Signing in and pressing edit site)

Now Press Add To Page , Choose HTML/JavaScript
Choose any location on the page , It's invisible , paste the code and press Save
Alright Try refreshing your page , the widget will pop up asking for filling a survey ? Then Cheers you're done ;)

Getting Visitors To Your Site

This is an Important Issue To Get money , remember minimum payout at CPA is 100$ and it's once monthly so you gotta get them fast

To Attract visitors your website must have something attractive , don't place alot of ads on the webpage

Submitting Your Site On Google

This Is quite useful , as google is the best search engine

Head To Google's Conent adder
Submit your Website with some sexy description
Voila , your website is on google !!!
it would be wise to do the same with more search Engines

Adding The Latest Trends.

This is a good way to boost up your website on search engines but mostly google

Head to Google's Hot Trends

Now Copy Them All
Get Back To Your Site and choose Add to page
Choose Add HTML/JavaScript
Now Write This Over

<meta name="keywords" content="Replace with Hot Trends">

Replace the 'Replace with hot trends' into your trends so it would be <meta name="keywords" content="1) michael jackson 2)obama vs bp"> etc~'

Now Save That And Add it somewhere on your home Page

So now you basically have more tags on your page but they're invisible , update them everyday to stay up to date

This Will probably keep your website a little bit further in google but not the #1 on google

OR JUST TRY http://www.freesitescripts.com/ it should do the work ;) !!!

It will add your website to TONS of Search Engines .

Being one of the most viewed websites ever , its definitley a good way to advertise your products or websites
What we're going to do to Earn Money is to post some tricks or methods which will lure our viewers to visit our sites and do our CPA Surveys

So Let's say your website is about softwares eh ?
So it won't bother to add a fake or semi fake post saying
" Windows 7 Ultimate Iso Image "

Find Some Video with the link to the windows 7 or any other HOT softwares probably some cracks , now copy the link and paste it to your post at your website
Now Create a Small 30 – 60 seconds video explaining how to get & install The windows 7

In The end of it just say "More Explained tutorial over at
www.yourwebsite.whatever.com

That's a Good Way , try it with other categories like music and gaming

Another Method For Youtube.
Which I Consider Spamming

Just go to the most viewed videos about your staff post your website at comments and just say "You Can Download it With It's Crack Over Here at www.fuckmeimfamous.subhost.com "

That won't Get much clicks as it will get flagged as spam but still not so bad as a start for getting traffic

A Good Method To Get Alot Of people To your website if it has gaming Contents
Offer Them Stuff Like Xbox Codes,Runescape Accounts ,WoW Codes ,Steam Accounts For Free (OFC Fake Ones)

If You Want To add musical contents go to the most viewed videos at youtube , most of them are music videos let's say Lady Gaga – Bad romance
Find some lyrics Video
Download it "Try adding OK at the link where it should look like www.ok.youtube.com" then reupload it with your link at description and say download thousands of mp3s and ringtones over here ....

Twitter

This is a SLOW ASS way if you don't have some bot to follow people for you , so head to THIS WEBSITE (Attached in package)
Download their Bot , use it to create some random Accounts then go to some celebrity's page like paris hilton or David Guetta and go to their followers and press Follow All On The bot it will follow until blocked (After 1000 , or 2000)
Do this for 2 days you'll get like 500-800 followers
Now post something like , "Thanks sarah for the surprise party was amazing , i uploaded our pics at xx" get some survey link (Check USA Ones) Then shorten it with Adf.ly , now post it instead of the xx :P
Out of curiosity people will go their and do that , be creative think of other methods for getting them to look that

Show Biz !

Ever heard of the term show biz ?
Yeah show bussiness , It's a good bussiness for some people ,
wanna take a part ?
Why not , let's give it a shot

I'd Rather Create a blog at blogspot.com so it would be more
realistic to viewers , Now sign up at www.sidereel.com
Check the upcoming shows for that night or the night after / before
okay now press some show let's say Entourage Season 7 episode 1
take a video of the still image posted with that Episode's description
Now create a post at your blog saying
Entourage season 7 Episode 1 !!!
"Hey guys tonight the ~ will be posted live , here's a little
description of it < Copy the description from sidereel and post it
here "
now go back to the video with the still image , upload it to
youtube , the video should be maximum 20 seconds , add an
annotation from the second 10 to 20 saying " i don't know wtf is
going on but youtube removes all my videos check them at the link
at description"

now post your blog's link " DON'T FORGET TO POST YOUR WIDGET
OVER THE BLOG" find something called add gadget and choose
javascript

Social Engineering

This is not really a good way but it works some times , go to some websites like chat-avenue or chatroulette or omegle.com and lie about being a female , usually say 18/f/UK , they will ask you for pictures (this works alot really) so tell them but i need to do a little test to make sure you're not a hacker or a bot , he will say yes
you should have already asked him about his county so head to cpalead.com >> Surveys ,they are sorted by country , find his country then find a good EPC Survey , don't give him downloads cause It will look fishy

He will either do it or ignore you but i guess its worth a try

Always look for social networks with dumb people ;)

The Best Ever !!
FACEBOOK

Since It Has Millions Of Users , Millions Are online Most Of the time , so it's for sure the best way to distribute , but mass adding people is hard and will eventually get you banned
so what shall we do ?!
Do A Fan page , a Viral Fan Page
How's That ?
Easy all you need is to create a page so
Go to http://www.facebook.com/pages/manage (Do that from another account not your real one)
Call it something like 99% Saw this guy in their Dreams
Now go to Edit Page , Wall Options , Landing Page >> Boxes
Now Find the add application , search for Static FBML add it to the page
Add the code from the (FBML.txt) with changing the PUT LINK HERE into your website

Now Get the dreams posted with this E-book , Sign up to 110mb.com , open file manager, delete the file index.html, upload the files in the Dreams Folder THE SAME WAY THEY'RE (Instead of creating a folder create a directory that's how it's called there)
Now People will have to like the page before they see your website , when they go there the CPA will be pumped (When you change "REPLACE WITH WIDGET CODE) on video.html and index.html BOTH

Another Facebook Method

Create a page with something like , "Justin Biebers Secret Girlfriend's Image" or "MAFIA Wars Hack" "Farm Ville Hack" Stuff like that

That would attract people easily and will gain alot of people (Use the same FBML.txt)

Another Method :-

Forums with alot of users are a good place to gain trafic and completion to your surveys
So find some good forum with a referral section then say SURVEY FOR SURVEY you'll get alot of pms
Use fake emails to sign up the surveys so you won't get spammed (Don't forget you gotta validate them)

For Gamerz , go to some gaming forum and post some fake Screen shot's of your hacks then people will just go crazy and do them

You Could also Try

signing up at microworkers.com / minuteworkers.com / jobboy.com they will give you a sign up deposit of 1$, use it to create a new job , including doing one survey of your surveys , at CPA go to Surveys > USA > choose one with high payrate then post it , Don't forget to post it for USA Only So you'll get the money You'll only pay 0.10 or 0.20$/ worker and you'll get like 1$ + so it's quite a good profit

Well that was all for a white hat way to gain money using CPA , There are thousands of other ways to earn money with than CPA , but CPA is one of the most succesfull methods ever on the internet so get ready for profit ,
Normally with these methods all at the same time , you'll be getting ATLEAST 60-100$+ A

Day , So Enjoy It ^^
